

2019 Forest Industry Bargaining

USW LOCAL 1-1937 UPDATE

2019 BARGAINING UPDATE #39 – December 16, 2019

Coast Bargaining Committee - News Release

BEWARE OF ANTI-UNION SOCIAL MEDIA FACEBOOK SITES

As members are aware, USW Local 1-1937 has a Facebook site (USW 1-1937) that we post bargaining updates, pictures and important information for our members regarding Local Union events and issues.

Shortly after the Strike started, a couple of anti-union Facebook sites were started that use the names USW Local 1-1937 on strike and USW Local 1-1937 Members. Your Bargaining Committee wishes to advise all members that these sites are only there to promote dissension, divide our members and undermine your Union.

The people setting up these sites are very misinformed individuals who have decided to sow seeds of dissension in support of WFP and Contractor Owners. Many of the site users are not even members, and in fact, a number are contractor owners.

The Local Union has been informed that some Local members believe these sites are operated by our Local Union, as they are confused by the use of the Unions name and Local number.

Please be advised that these sites promote anti-union messages and themes and are in no way affiliated with USW Local 1-1937. They also promote anti-union contractor events to make them appear to be USW member events. We ask that members be aware of these issues if you see these sites on Social Media.

Brian Butler – President, USW Local 1-1937
