USW 1-1937 LOCAL UNION UPDATE

As most of you are aware, your employer has refused to honour the five paid sick days legislated by the BC Government. We immediately filed a grievance and began political action with the government to fix the legislation.

We are pleased to announce our approach has been successful and the BC Minister of Labour has tabled new legislation that will make the five paid sick days applicable to Union Members who have Short Term Disability Insurance but did not have five sick days.

Thank you for your patience as we worked through this difficult scenario.

In Solidarity,

Brian Butler
President
