2025 Red Chris Mine Bargaining

USW LOCAL 1-1937 UPDATE

2025 BARGAINING UPDATE #1 - MARCH 26, 2025

USW Bargaining Committee - News Release

Dear Members,

Your Union started collective bargaining with the employer on February 24th, 2025. We opened by exchanging your proposals with the employer, and they, in turn, tabled proposals with your Union.

The Parties started by bargaining on non-monetary items first. Over the following eight scheduled bargaining days, your bargaining committee was successful in reaching an agreement on many of the language issues we tabled. We then hit a roadblock on some of the non-monetary proposals by March 7th.

On March 24th, 2025, we started bargaining on the members' monetary proposals. With eight more days scheduled, we are moving forward and will continue bargaining until we reach the best collective agreement possible for all USW Local 1-1937 members at Red Chris.

We will keep you updated as bargaining progresses.

Thank you all for your continued support.
