Bargaining Committee September 2nd , 2025

September 2nd, 2025

Dear Members,

Your bargaining committee recently sat down with the Company again to resume bargaining discussions on August 26th, 2025. We did receive counters from the Company for the package proposal that we proposed first.

We will discuss this week to decide on what the next step is based on the counters that were presented by the Company.

In solidarity,
